**I. PATIENT ADVISORY TO CONSULT A PHYSICIAN**

MARY LEE, MSA, LAc., (dba EnPointe Acupuncture) is committed to your health and well being. I believe that while Oriental Medicine has a great deal to offer as a health care system, it cannot totally replace the resources available through biomedical physicians. Consequently, I recommend that you consult a physician regarding any condition or conditions for which you are seeking acupuncture treatment.

To comply with article 160, section 821 1.1 (b) of NYS Education law, you are requested to read and sign the following statement:

**WE, THE UNDERSIGNED, DO AFFIRM THAT \_\_\_\_\_ (PATIENT) HAS BEEN ADVISED BY MARY LEE, MSA, LAc., TO CONSULT A PHYSICIAN REGARDING THE CONDITION(S) FOR WHICH SUCH PATIENT SEEKS ACUPUNCTURE TREATMENT.**

**II. INFORMED CONSENT TO ACUPUNCTURE TREATMENT**

I consent to acupuncture treatments and other procedures associated with the practice of Traditional Oriental Medicine provided by MARY LEE, MSA, LAc.. I have discussed the nature and purpose of my treatment with MARY LEE, MSA, LAc. I understand that the methods of treatment may include, but are not limited to acupuncture, moxibustion, cupping, cold laser, electrical stimulation, and bodywork therapies such as medical massage, and Tui Na (Chinese Massage).

I have been informed that acupuncture is a safe method of treatment, but that it may have side effects, including bruising, numbness, or tingling near the needling sites that may last a few days, and dizziness or fainting. Bruising is a common side effect of cupping. Rare and unusual risks of acupuncture include spontaneous miscarriage, nerve damage and organ puncture, including lung puncture (pneumothorax). Infection is another possible risk, although ENPOINTE ACUPUNCTURE uses sterile, disposable needles and maintains a clean and safe environment. Burns and/or scarring are a potential risk of moxibustion. I understand that while this document describes the major risks of treatment, other side effects and risks may occur.

The herbs and nutritional supplements (from plant, animal, and mineral sources), which may be recommended, are traditionally considered safe in the practice of Chinese Medicine, although some may be toxic in large doses. I understand that some herbs may be inappropriate during pregnancy. Some possible side effects of taking herbs are nausea, gas, stomach pain, vomiting, diarrhea, rashes, hives, and tingling of the tongue.

I will notify ENPOINTE ACUPUNCTURE if I am, or become pregnant. I will also notify the ENPOINTE ACUPUNCTURE if I am using a pacemaker, anticoagulants or have a bleeding disorder.

I do not expect ENPOINTE ACUPUNCTURE to be able to anticipate and explain all possible risks and complications of the treatment.

I understand ENPOINTE ACUPUNCTURE may review my medical records and lab reports and that portions of my records may be used for teaching or research purposes, however my name and identifying information will not be disclosed. Otherwise all of my records will be kept confidential and will not be released to any party without my written consent.

**By voluntarily signing below I show that I have read, or have had read to me, this consent to treatment, have been told about the risks and benefits of acupuncture and other procedures, and have had an opportunity to ask questions. I intend this consent form to cover the entire course of treatment for my present condition and for any future condition(s) for which I seek treatment.**

To be completed by patient (or patient's representative if the patient is a minor or is physically or legally incapacitated).

To be completed by the member of the clinical staff providing information and obtaining consent.
